

Conrad Vernon
Vice President

CAREER SUMMARY

Conrad brings with him 30 years experience in all areas of healthcare business, marketing, and strategic planning consulting for hospitals and physician groups across the country. He has worked with clients in all 50 states, with experience in developing and designing heart institute organizations, facilitating mergers, healthcare network development, expansion plans for cardiovascular practices and programs, strategic plans, marketing programs, and heart hospital facility and operational design. Although most of his consulting background has been in the field of heart and vascular medicine, he has authored plans for primary care practices and networks, multi-specialty physician groups, orthopedics, urology, oncology, women's health, and other subspecialties for hospitals. Corazon is pleased to have Conrad on the team as a Vice

President, as his extensive healthcare and business experience, along with consulting expertise, will help contribute to the team's success.
